

Associated Subcontractors of Massachusetts

## ASM/OSHA SAFETY ROUNDTABLE

# Safety Times Three: Views of Owner, GC & Sub

Tuesday, May 12, 2009

### OVERVIEW

**The Business Case for Safety** (20 mins): Our speaker will start with an overview of the economic impacts of injuries and incidents - to both the subcontractor and the owner.

**The Subcontractor's Role in Safety** (20 mins): The presentation will then focus on how the subcontractor's role in safety is changing. There will also be a discussion of the paradigm shift in attitudes toward construction safety both within government and within the industry itself.

**The GC's Perspective on Safety and the Sub's Responsibilities** (20 mins.): Next, we will discuss the general contractor's view of subcontractor safety programs and oversight requirements. We will take a candid look at the differences between subs with mediocre safety programs and subs with effective safety programs.

**Open Discussion for Improving Safety** (20 Min). We will end with a general discussion of practical steps and methods for improving safety performance on construction sites.

### ATTENTION COMPANY OWNERS!

Please pass this along to your safety officers, PMs or anyone responsible for safety on the job site! These sessions always provide great information – more so than people expect! Also attending will be insurance experts, and officials from the Massachusetts Division of Occupational Safety. Please fill out the registration form below and FAX it to us no later than Thursday, May 7th.
